Marine glass for visibility, fire safety and protection

Bohamet runs its own glass processing plant, which supplies the panes for its ship windows and also sells glass on its own. Heated, insulated, acoustic, fire-rated, ballistic and EMC-shielding glass all come from the same source as the frames, so window and glazing specs stay aligned.

KEY FEATURES

- Electrically heated glass prevents condensation and keeps windows clear
- Thermally insulated glass reduces heat loss and heat gain
- Noise-reduction glass with acoustic interlayer (e.g., PVB)
- Bohflam® fire-rated glass
- Armex® bullet-resistant laminated glass
- E-Magnetic® EMC shielding glass
- Curved/bent, tinted and decorative glass, including Priva-Control® switchable privacy and silk print
- Per Bohamet, marine-certified where applicable
